

Fc Technology in Hemophilia: An Approach to Prolonged Protection

A Sobi Hemophilia and Biogen Idec Hemophilia Satellite Symposium at
The 4th Annual Congress of the European Association for Haemophilia
and Allied Disorders (EAHAD)

Wednesday, 2 February 2011, Geneva, Switzerland
Room Crans-Montana, Starling Geneva Hotel & Conference Center
14:30–16:00

Chair

Professor Erik Berntorp (Sweden)

Co-Chair

Dr Stephen James (Sweden)

Fc Technology in Hemophilia: An Approach to Prolonged Protection

A Sobi Hemophilia and Biogen Idec Hemophilia Satellite Symposium

The Technology

- 14:30–14:40 Long-acting Factor Concentrates: Technical Possibilities
Professor Erik Berntorp (Sweden)
- 14:40–14:50 Fc Fusion Technology: Molecular and Preclinical Studies
Dr Glenn Pierce (US)
- 14:50–15:00 Questions and Panel Discussion

The Clinical Program

- 15:00–15:15 Regulatory Authority Guidelines for Clinical Documentation of FVIII and FIX
Professor Jørgen Ingerslev (Denmark)
- 15:15–15:30 rFIXFc Phase I/IIa Data and B-LONG Clinical Trial
Professor K. John Pasi (UK)
- 15:30–15:40 rFVIII-Fc Phase I/IIa Data and A-LONG Clinical Trial
Associate Professor Neil Josephson (US)
- 15:40–16:00 Questions and Panel Discussion
